

IN THE SPECIFICATION

Please amend the title as set forth on page 1, lines 2-3 to the form below:

**A METHOD OF ~~PROVIDING~~ SELECTING A POINT WITHIN A DISPLAY FOR A
GRAPHICAL USER INTERFACE**

Please amend the paragraph beginning on page 4, line 10 to the form below:

Figure 5 illustrates the scenario where an additional point 50 is selected to supplement selected point 40 and a function executed to determine the distance S1 between the two point. In a map context, the distance may not necessarily be a straight line but may take into account permissible travel routes.
